

Love 'Em Like

Words and Music by Lisa Gungor, Lydia
Hendrickson, Rick Seibold and Noah Rubin

Key - A | Tempo - 88 | Time 4/4

Chorus

When you see one another
all your sisters and brothers
We're apart of each other
Love 'em like you love yourself

Verse 1

When we come together
When we share the light
Everything, everything, everything
It's gonna be alright

When we love one another
If we can see through the ice
Everything, everything, everything
It's gonna be alright

Chorus

Verse 2

If you can't love the other,
then your hate blinds away
Take a look in the mirror,
and love yourself

Keep on holding on through the night
There is hope in the morning light
Don't lose hope when you're in the fight,
you're gonna be alright

Chorus

Bridge

If you're in the middle, or on the left,
or on the right
Just take a step back,
you'll see that it'll be alright
